

Lucas de Oliveira

Front-end developer specialized in creating accessible and dynamic interfaces, focused on offering a digital experience.

Experience

Afixcode

Junior Frontend Developer (January 2024 - Current)

- Development and maintenance of a responsive productivity web system, prioritizing interactive and dynamic interfaces using HTML, CSS, SASS, JavaScript, and jQuery.
- Collaboration with the team on implementing new components for the productivity system using technologies like C#, .NET, and JavaScript.
- Active participation in team code reviews and project planning.
- Team collaboration in brainstorming and creating new ideas for system components and features.
- Utilization of Git and Azure DevOps for version control, ensuring efficient management of changes and updates.
- Regular check-ins to specific branches for new features, bug fixes, and performance improvements.
- Debugging and fixing critical bugs in the productivity system, including data synchronization issues and layout failures on smaller screens, resulting in a smoother user experience.

Trainee (September 2022 - December 2023)

- Collaboration with the team in applying best practices for coding and software architecture.
- Support in the development and maintenance of responsive internal web systems and productivity platforms, ensuring stable and optimized functionality across different devices.
- Assistance in developing and creating web interfaces with HTML, CSS, and JavaScript, as well as resolving impactful interface bugs.
- Support in developing and creating components with C# and .NET, as well as fixing critical bugs in data request processes.

Education

Cruzeiro do Sul University

Conclusion - 2023

Technology Degree in Systems Analysis and Development - São Paulo, Brazil.

Skills

Technologies
